

SAGORA 1.1 GNU / linux

Version Tested in:

Debian 9 and 10 64Bits
Ubuntu 20.04LTS 64Bits
Manjaro 20.01 XFCE 64Bits

- 1) Download the zip from our website (sagora.org)
- 2) Unzip the zip
- 3) Open a terminal and change the folder permissions:

```
#sudo chmod -R 777 SAGORAV1.1
```

- 3) Install Jack and Jackd if you don't have it installed, and run it:

Debian

Install:

```
#sudo apt-get install jack  
#sudo apt-get install jackd
```

Run:

```
#jack_control start  
#jackd -r -d alsa -r 48000
```

Ubuntu

Install:

```
#sudo apt-get install jackd
```

Run:

```
#jack_control start
```

Manjaro

Install:

```
#pacman -S jack
```

Run:

```
#jackd -r -d alsa -r 48000
```

- 4) open another terminal, go to the SAGORAV1.1 folder and run Sagora:
#. / Sagora.sh
